STATE OF VERMONT PUBLIC SERVICE BOARD

CPG #NM-382

Application of John and Kathryn Greenberg for a)
certificate of public good for an interconnected net)
metered wind turbine and photovoltaic electrical)
power system)

Order entered: 9/7/2007

I. Introduction

This case involves an application filed by John and Kathryn Greenberg ("Applicants") on August 9, 2007, requesting a certificate of public good ("CPG") pursuant to 30 V.S.A. §§ 219a and 248 and Vermont Public Service Board ("Board") Rule 5.100 for a net metering system.¹ The net metering project consists of a wind turbine and a photovoltaic system to be located on the Applicants' property in Marlboro, Vermont.

Notice of the application in this docket was sent on August 1, 2007, by the Applicants, to all parties as specified in the Board's Rule 5.100. The notice stated that any party wishing to submit comments or request a hearing in this matter needed to file comments with the Board within thirty (30) working days of the date that the notice of the application was sent.

No comments have been received from any other parties or interested persons.

The Board has reviewed the application and accompanying documents and agrees that, pursuant to 30 V.S.A. §§ 219a and 248 and the Board's Rule 5.100, a CPG should be issued without further investigation or hearing.

II. FINDINGS

Based upon the application and its accompanying documents, the Board makes the following findings in this matter.

- 1. The proposed net metering project will be located on property owned by the Applicants at 564 Butterfield Road in Marlboro, Vermont. Application at Section 1.
- 2. The proposed wind turbine will have a tower height of approximately 97 feet and a rotor diameter of 8.2 feet. Application at Section 5.

^{1.} The application was initially filed on August 3, 2007, but was not completed until August 9, 2007.

CPG #NM-382

3. The proposed photovoltaic system will be installed on an existing structure. Application at Section 4.

- 4. The proposed project consists of a wind turbine system with a total system rated output of .95 kW AC, and a photovoltaic array with a system rated output of .201 kW AC. The facility will be interconnected with the Central Vermont Public Service Corporation electrical distribution system. Application at Sections 4 and 5, and Attachment.
- 5. Applicants have certified that the project is in compliance with all of the provisions of Sections 3 and 9 of the application. Based on these submissions, we conclude that the project does not raise a significant issue with respect to the environmental criteria of 30 V.S.A. § 248. Application at Sections 3 and 9.
- 6. Applicants have certified compliance with the insurance requirements as set forth in Section 3 of the application. Application at Section 3.

III. CONCLUSION

In Docket No. 6181,² the Board developed a net metering program in accordance with the statutory requirements of 30 V.S.A. § 219a. This program was further refined by the Board with the adoption of Board Rule 5.100 on March 1, 2001. The goals of the Order and Rule are to encourage private investment in renewable energy resources, stimulate the economic growth of the state and enhance the continued diversification of energy sources used in Vermont. The standards and requirements adopted in the Order and Rule have been determined by the Board to protect public safety and system reliability.

Based upon the findings and evidence, the proposed net metering project will be in compliance with the requirements of the Board's Order in Docket No. 6181 and Rule 5.100, the application does not raise a significant issue with respect to the substantive criteria of 30 V.S.A. § 248, and the proposed project will promote the general good of the state.

^{2.} Investigation into the Use of A Net Metering System for the Purchase and Sale of Electricity from Small Electrical Generating Systems to and from Electric Companies, Docket No. 6181, April 21, 1999.

CPG #NM-382

IV. ORDER

It Is Hereby Ordered, Adjudged and Decreed by the Public Service Board of the State of Vermont that the wind turbine and photovoltaic net metering system proposed by John and Kathryn Greenberg in Marlboro, Vermont, in accordance with the evidence and plans submitted in this proceeding, will promote the general good of the State of Vermont pursuant to 30 V.S.A. § 219a, and a certificate of public good to that effect shall be issued in this matter, pursuant to 30 V.S.A. §§ 219a and 248.

DATED at Montpelier, V	Vermont, this <u>7th</u> day of	of <u>September</u>	, 2007.
